Athens is the historical capital of Europe, with a long history, dating from the first settlement in the Neolithic age. In the 5<sup>th</sup> Century BC (the "Golden Age of Pericles") – the culmination of Athens' long, fascinating history – the city's values and civilization acquired a universal significance. Over the years, a multitude of conquerors occupied Athens, and erected unique, splendid monuments – a rare historical palimpsest. A large part of the town's historic center has been converted into a 3-kilometre pedestrian zone (the largest in Europe), leading to the major archaeological sites ("archaeological park"), reconstructing – to a large degree – the ancient landscape.
